

# GGG-3100-1 and GGG-3100-L

High/Medium/Low Pressure Gas & Liquid SRV Test Bench

**GGG-3100-L**

**GGG-3100-1**

## Product Description

- The GGS 3100 series test bench is capable of performing accurate set pressure testing and seat testing for up to 12" valve.
- Suitable for all types of SRV based on international test standard API526, API527, ANSI/API RP576.
- Equipped with hydraulic automatic clamping and offer big clamping force.
- Various clamping modes allow fast and simple operation, reduce time and manpower.
- Nitrogen or compressed air as testing source, save testing cost.
- Leaking test that meet TSG ZF001 and GB/T 12243 standards, comes with visual bubble counter.

## Other Features::

Other Specification	GGG-3100-1	GGG-3100-L
Max. Test Pressure	140 bar	680 bar
Clamping Range	Flanged: DN15-250(1/2"-10") Threaded: DN15-50(1/2"-2")	Flanged: DN15-300(1/2"-12") Threaded: DN15-50(1/2"-2")
Clamping Force	30 tons	40 tons
Max. height under Claws	105mm	125mm
